It is highly recommended that you use the latest versions of a supported browser in order to receive an optimal viewing experience. The following browsers are supported: Chrome, Edge, Firefox and Safari.

Q: WPF ValidationRule does not work on TextBox I want to restrict input text to numeric value only. However, the ValidationRule I created does not work. I found similar questions that would say to use Custom but Custom

just refers to custom data binding.
The following does not work.

System Requirements:

Minimum: OS: Windows 10 CPU:

Intel Core i5 1.7 GHz or better

RAM: 6 GB GPU: Intel HD

Graphics 4000 or better Resolution:

1280 x 720 DirectX: Version 11

DirectX Compatible: VR Ready

HDD: 80 GB free space Additional

Notes: The minimum requirement is

based on 1080p standard definition

video, the effects are designed for

high definition video, or multiple

graphics cards. It also requires a

powerful computer to run VR.
